

Specializing in Research & Development of High Performance Pressure Sensitive Tapes

Product Data Sheet

SC-1225

Fluorescent Cloth Gaffers Tape

Product Description: Product SC-1225 is a Vinyl Coated 100% Cotton Cloth with a Synthetic Rubber Adhesive. Hand-Tearable. High Adhesion and quick stick. Scuff resistant, provides a positive dust and dirt seal. Used for holding down cables, wires, electrical cords and marking placement applications. Available in four optically strong **FLUORESCENT COLORS: Yellow, Orange, Green, Pink**

Physical Characteristics

Nominal Values

Total Tape Thickness	11.00 mils
Backing Suststrate	Vinyl Coated Cloth
Tensile Strength	45 lbs/in
180 Degree Peel Adhesion to Stainless Steel	80 oz/in (8.83 N/25mm)
Tape Color	Yellow, Orange, Green, Pink

Tape Application

To achieve ultimate bond strength please be sure materials being bonded are clean and free of dust, dirt, oil or other substances which can effect the bond of the tape adhesive. Firm application pressure will promote a strong, long lasting bond. Adhesive bond strength is dependent upon the material type being bonded. If a variety of materials are being used, please be sure to test the suitability of product performance with each material. Please contact Custom Adhesive Products at the phone number below with questions regarding your taping applications and needs.

Notice: Physical and performance values list above are average values obtained from tests performed according to PSTC or ASTM standard test methods. Custom Adhesive Products does not make any warrant of any kind as to the results listed above. The information listed above does not represent a performance guarantee. Product performance may vary with each individual application and the purchaser should test the product prior to use and satisfy themselves regarding product functionality in their application. Custom Adhesive Products shall not be liable for damages in excess of the purchase price of its products or for incidental or consequential damages.
